Calgary, AB, Canada • davidnguyen107206@gmail.com • 403-827-2659

Education

Southern Alberta Institute of Technology (SAIT)

Diploma, Software Development. GPA: 3.7

Calgary, AB

2024 – 2026

Relevant Coursework: Web Development, Object-Oriented Programming, Database, Cloud Computing, Software Analysis, Security, Testing and Deployment

Programming Experience: 4+ years (self-directed and academic)

Certifications: Schulich Ignite (UCalgary, 2022), Git Essential Training (2024), Learning Git & GitHub (2024)

Projects

HomeFull Website – Next.js, React, Firebase, Vercel | 2026 | <https://github.com/Haedyn06/Project-HomeFull.git>

- Collaborated in a team of three to design and develop a full-stack web application connecting homeless individuals with job opportunities, deployed publicly using Vercel (live at <https://project-homefull.vercel.app/>)
- Developed search and filtering features by city, skill, and shelter, improving user navigation and accessibility of job listings

Village Rental – Python, PyQt5, PostgreSQL | 2025 | <https://github.com/ZaRiceHatGuy/VillageRental.git>

- Designed and developed a full-stack desktop application using Python and PostgreSQL, supporting CRUD operations across a 5-table relational database.
- Implemented real-time rental cost calculations and interactive reporting dashboard, enabling efficient tracking of sales by date, customer, and equipment category.

Quadratic Solver – Python, Tkinter, Matplotlib | 2022 – 2026 | <https://github.com/ZaRiceHatGuy/Quadratic-Calculator.git>

- Developed an interactive GUI application for solving quadratic equations with real-time graphing, supporting linear, quadratic, and complex root cases
- Handled all equation cases (linear, quadratic, real/complex roots) and vertex calculation with adjustable x-axis range

PingPongPyGame – Python, Pygame | 2026 | link: <https://github.com/ZaRiceHatGuy/PingPongPyGame.git>

- Built classic arcade game using Python (Pygame) with real-time input handling and frame-rate independent movement
- Implemented collision detection, randomized ball direction, and physics-based ball-paddle mechanics

Experience

Self-Employed

Calgary, AB

Piano Tutor

Jun 2023 – Dec 2025

- Instructed 3–6 students weekly (ages 6–15) in piano technique, music theory, and sight-reading, from beginner to RCM Level 3
- Developed customized lesson plans and adapted teaching methods for different age groups
- Strengthened communication and problem-solving skills by adapting teaching methods to students with diverse learning styles

Leadership & Activities

Centennial High School Band

Calgary, AB

Section Leader

Sep 2023 – Jun 2024

- Led weekly rehearsals with 11 percussion band members and mentored 8 junior members
- Received Team Award for Leadership, Resilience, and Community-Building

Skills & Interests

Technical: Python, JavaScript, HTML/CSS, C#, Java; React, Next.js, Node.js; PostgreSQL; Git, VS Code, Azure, Vercel, Docker, Linux

Language: English (Fluent), Vietnamese (native)

Interests: Piano, Chess, Building Software Projects
